In re Application of :  
Li JIANG, et al :  
Application No. 10/541,568 : **DECISION ON PETITION**  
Filed: May 1, 2006 :  
Docket No. 57.0499 US PCT :

This is a decision on the petition under the unintentional provisions of 37 CFR 1.137(b), filed December 7, 2009, to revive the above-identified application.

The petition is **GRANTED**.

The application became abandoned for failure to reply in a timely manner to the non-final Office action mailed, May 21, 2009, which set a shortened statutory period for reply of three (3) months. No extensions of time under the provisions of 37 CFR 1.136(a) were obtained. Accordingly, the application became abandoned on August 22, 2009.

The petition satisfies the requirements of 37 CFR 1.137(b) in that petitioner has supplied (1) the reply in the form of an amendment, (2) the petition fee of \$1620; and (3) and the required statement of unintentional delay.

The application file does not indicate a change of address has been filed in this case, although the address given on the petition differs from the address of record. A change of address should be filed in this case in accordance with MPEP 601.03. A courtesy copy of this decision is being mailed to the address noted on the petition. However, until otherwise instructed, all future correspondence regarding this application will be mailed solely to the address of record.

An extension of time under 37 CFR 1.136 must be filed prior to the expiration of the maximum extendable period for reply. *See In re Application of S.*, 8 USPQ2d 1630, 1631 (Comm'r Pats. 1988). Since the \$1110 extension of time fee submitted with the petition on December 7, 2009, was subsequent to the maximum extendable period for reply, this fee is unnecessary and will be credited to petitioner's Deposit Account No. 19-0615.

Telephone inquiries concerning this decision should be directed to the undersigned at (571) 272-6735.

This application is being referred to Technology Center AU 1795 for appropriate action by the Examiner in the normal course of business.
